

Board of Directors

Budget Hearing & Regular Meeting Agenda

Monday, Nov 18, 2013, 6:00 – 8:00 pm Riverside Meeting Room, Baker County Public Library 2400 Resort St, Baker City Gary Dielman, President

6:00	I.	CALL TO ORDER	Dielman
	II.	Additions/deletions from the agenda (ACTION) Related documents (1): Agenda.	Dielman
	III.	Conflicts or potential conflicts of interest	Dielman
	IV.	Approval of minutes from previous Board Meeting (ACTION) Related documents (1): Board Meeting Minutes 10/14/13.	Dielman
	VI.	Open forum for general public, comments & communications In the interests of time and to allow as many members of the public an opportunity speak, the board asks guests to limit remarks to five (5) minutes if speaking on bel an individual, or ten (10) minutes if speaking on behalf of a group or organization.	
6:10	VI.	PREVIOUS BUSINESS	
	i.	Strategic Planning – Review of Prioritized Staff Goals Related documents (2): Top Strategic Goals per Staff Survey; Information Today article, "How to Prove a Library's Relevance"	Stokes
	VII.	ANNUAL / RECURRING BUSINESS	
	i.	2013-2014 Revenue Projection per County Assessor Report Related documents (3): Tax Revenue Projection; Tax Rate Summaries; District Summary Values	
7:00	VIII.	NEW BUSINESS	
	i.	Discussion: BCLD as Fiscal Agent for Sage Library System	Stokes
7:30	IX.	ADMINISTRATIVE REPORTS	
	i.	Director's Report Facilities – Active bids, tree care, Huntington ramp. Gas smell resolved. Grants – SDAO Safety & Security grant for Huntington project. Operations – Yearbook digitization project by OCI Purchasing – monitors & arm mounts for circulation desk. Outreach – Richland Open House, Fri 10/18/13 Staff – Bookmobile New Hire; Sunday staff Statistics – LJ 2013 Index (BCLD not included due to visits, based on 2011 data) Other – Support Naming Trimet Bridge the William Stafford Memorial Bridge	Stokes
	ii.	Business and Financial Report Related documents: To be distributed at meeting.	Hawes
	х.	Agenda items for next regular meeting: Dec 9, 2013 6:00pm	Dielman
8:00	XI.	ADJOURNMENT	Dielman

The times of all agenda items except open forum are approximate and are subject to change. Other matters may be discussed as deemed appropriate by the Board. If necessary, Executive Session may be held in accordance with the following. Topics marked with an asterisk* are scheduled for the current meeting's executive session.

ORS 192.660 (1) (d) Labor Negotiations ORS 192.660 (1) (h) Legal Rights

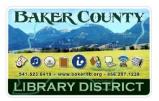

ORS 192.660 (1) (e) Property ORS 192.660 (1) (i) Personnel

Baker County Library District Board of Directors

Regular Meeting Minutes Monday, October 14, 2013, 6:00 pm

Call To Order Agenda Approved	Gary Dielman, President called the meeting to order at 6:05pm. The meeting was held in the Riverside Meeting Room at the Baker County Public Library, 2400 Resort Street, Baker City, Oregon. Present were: Gary Dielman , Della Steele , Betty Palmer , and Kyra Rohner-Ingram , Directors. Also present were Perry Stokes , Library Director; and Christine Hawes , Business Manager. Dielman asked for additions or changes to the agenda. None were given.
Conflicts of	Dielman asked if there were any potential conflicts of interest to be
Interest	declared. None were stated.
Minutes Approved	Dielman asked for corrections or changes to minutes from last month. None were given. Rohner-Ingram made a motion to approve both the Agenda and the September 8, 2013 Regular Meeting Minutes as presented; Steele seconded; passed by three Directors present (Dielman, Steele, and Rohner-Ingram); with Palmer arriving after motion passed.
Public Comment	Dielman stated for the record that there were no other members of the public present for comments. Stokes had no public correspondence to report.
Strategic Planning	Dielman said that he read through the board self-evaluation from the Trustee Handbook. He felt the board is proficient in most every area. Rohner-Ingram commented that as the newest board member, she found the evaluation and planning useful. She feels a training packet would be especially helpful for future new board members. Stokes said he has obtained copies of the <i>Complete Library Trustee Handbook</i> for each Director and will issuing them at the next meeting. The edition was published in 2010 by the Association of Library Trustees, Advocates, Friends and Foundations (ALTAFF).
	The Board feels particularly strong in the area of financial knowledge. Rohner-Ingram felt unsure about responsibilities regarding "advocacy". Palmer replied that board members may be utilized for public relations during special projects such as when the District has undertaken construction or remodeling projects or has sought a levy or bond measure. Dielman asked about renewal of the 5-year levy. Stokes replied that the current levy expires at the end of fiscal year 2016-2017. Renewal will be necessary in order maintain current services.

Board of Directors

Regular Meeting Minutes

Monday, October 14, 2013, 6:00 pm

Stokes reviewed the agencies to which the District must report. As a special district (Municipal corporation), BCLD enjoys a great deal of independence. There are just a few local and state government agencies that must be reported to by law, including

Local & State Government agencies -

- County Assessor budget & tax assessment certification (annual, due July 15)
- County Clerk budget filing (annual, due Sep 30)
- Oregon State Library Statistics report (annual, due Oct 1)
- Oregon Secretary of State -- Audit. ORS 297.425 requires every municipal corporation to be audited at least once a year. The audit is filed with the Oregon Secretary of State. The Secretary of State has authority to fine the District for various violations.
- Oregon Ethics Commission The District is invoiced annually by this agency but no report is due. As public officials, all library employees and volunteers are subject to Oregon Ethics Law and could be investigated and fined by the Ethics Commission.

Other reporting:

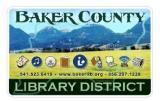

Associations -

- Oregon Library Association (OLA)
- Libraries of Eastern Oregon (LEO)
- Sage Library System
- Special Districts Association of Oregon (SDAO)

The District is a voluntary member of these organizations. Sage has recently been establishing standards for participation, particularly in regards to cataloging and is formulating consequences for members not meeting standards. OLA and LEO have no oversight authority but do act in advisory, professional development and support capacities. There has been some discussion in OLA about an accreditation process, but there has been no pursuit of the idea to date. SDAO requires annual reports to determine insurance rates.

Various funders for grant reports / subsidy qualification – Oregon State Library (Ready to Read Grant); USAC (E-Rate reimbursements); Leo Adler Foundation

Stokes provided all Directors with copies of Appendix B: Essential Documents Every Trustee Needs from the *Complete Library Trustee Handbook*. He recommended every Board member and staff read these documents upon starting with the library, refer to them often, and read

Board of Directors

Regular Meeting Minutes

Monday, October 14, 2013, 6:00 pm

them all thoroughly again every couple of years. Stokes asked for comments on the Strategic Planning chapter (handed out at the last meeting from the Handbook). He does want to make a new Strategic Goals document. Discussion ensued. At the staff training, Stokes had the staff brainstorm ideas for goals. A list that was quickly compiled at the meeting today was projected for the Directors review; the list was reviewed with explanations. Stokes said the next step is to compile and organize the comments. He plans to have a committee write a proposal to be given to the Board for review. Discussion to be continued at the next meeting. Stokes reviewed highlights of the 2012-2013 Oregon Public Libraries **Statistics Report** 2012-2013 Statistics Report. The report was projected for viewing by the Directors. The District has 12,700 registered borrowers, which Stokes suspects is **Highlights** high. He said it is time again for an inactive accounts report to be run so that unused accounts can be identified and purged. Board members were pleased about the high number in relation to the County population. The current employee FTE of 13.89 is down from 15 FTE in the prior year due to not including job training personnel in the figure. The expenditure on collections was \$96,000 with books totaling 113,553 in Baker County. In addition there are 25,000 E-books and 20,000 audio books. The total physical and digital items available in this District are 198,394. Stokes emphasized that this figure does not include the vast number of materials we have access to through resource sharing with our Sage Library System partners. Stokes is concerned that BCLD circulation of Children's materials is low compared to other libraries. He has asked staff to find ways to increase children's borrowing. Rohner-Ingram asked how the shelving and organization of the area effect circulation; there was discussion on the Children's area. Overall circulation has increased to 165,000 over 153,000 in the prior year. The largest increase has been in the DVD collection with a slight increase in book circulation. Stokes added that there has been some noticeable decline in visitors during the Resort Street construction that will undoubtedly have an impact on these numbers for the current year. **Executive Session** An Executive Session was called to order at 6:56pm and closed at

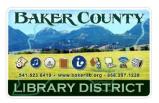

7:04pm. During this time doors were closed. Discussion included

Board of Directors

Regular Meeting Minutes
Monday, October 14, 2013, 6:00 pm

	confidential personnel matters. The Regular Board of Directors Meeting resumed at 7:05pm at which time public doors were re-opened.
New Policy: Personal Use of District Resources	Stokes attended a full-day training session from Special District Association (SDAO) last month where he became aware of the need for a new policy governing District Resources. The policy he presented was modeled after one from University of So. Carolina. Stokes developed it to summarize Oregon Ethics Law requirements and intends to include it as a prominent part of employee orientation and training materials. Stokes said the essence of Oregon Ethics Law is that public official positions may not be used for personal financial gain or to avoid an expense. Discussion ensued on appropriate use of District facility and materials. Steele commented that some perks as authorized were acceptable. The
	group discussed how benefits allowable to employees must be weighed against the risk of negative public perception that staff may be taking advantage of their positions. Rohner-Ingram suggested verbiage for a liability disclaimer to be added to the policy. Stokes will update the policy based on Board suggestions. Rohner-Ingram made a motion to adopt Personal Use of District Resources Policy as amended; Palmer seconded; motion passed unanimously.
Administrative Reports: Director's Report	Stokes reported that the Leo Adler Grant Application was filed on time. The Library requested \$50,000 to help fund a RFID (Radio Frequency Identification) circulation system. Additional funding from other granting agencies will also be sought for the project; \$10,000 each from two or three other agencies. In the Adler application, the District committed \$25,000 from Memorial Fund to meet the approximate \$95,000 project starting cost. A storage shed kit was ordered from Costco for \$1,000; It was on sale from \$1,400. The shed is an 8x10 A-frame roof and does require assembly. It is planned to be placed by the handicap parking in the north parking lot. This will provide a space to more safely store gaspowered equipment such as the lawn mower and other landscape machinery rather than in the library utility room. This concluded the Director's reports.
	Steele told the group that she had recently spoke with Terri Axness, a local artist who said that she and other artists in the community are interested in participating in coming up with an idea for the fountain.
Business Report	Hawes passed out check packets for signatures; the financial report was

Board of Directors

Regular Meeting Minutes
Monday, October 14, 2013, 6:00 pm

Γ	
	included in board packets. The General Fund received tax turnovers totaling \$2,717.28 in October. Interfund loans totaling \$70,000 have been utilized by General fund for operating to-date. Checks written include Ingram book orders of \$6,585.07 and InfoGroup for the annual Reference USA package renewal \$1,600; building maintenance expenses include Blum's Backflow Testing and repair work \$252.30, Ace Nursery's Grass Growers repaired the irrigation system \$1,086.34, Whelan Electric outside light repair \$85.50 and Alpine Fire \$178 checked fire extinguishers at 2 branch locations. The Visa will be paid on the 20 th since the reconciliation is still in process. This year's annual assessment from the State of Oregon Government Ethics Commission was \$412.87 this year (\$285.83 annual assessment plus \$127.04 an additional special assessment to fund a mandated electronic filing system) whereas last year this bill was \$260.15. Ed Staub made the first delivery to the Haines Library of \$304.50 in heating fuel. The Century Link Huntington telephone bill of \$93.87 was a little high and was reviewed in detail. The Other Funds had no activity to report. The available cash is \$76,637 after having loaned \$70,000 to the General Fund. The District will have enough funds to carry itself through the November first payroll until the tax turnovers begin to come in. The financial statement draft was delivered to Kent Bailey's office last Thursday, October 10. One of his staff, Jake Collier, plans to start on the audit work next week and hopes to get the work done prior to starting other large audits. Checks were signed and approved.
Next Meeting Date	The next regular Board meeting will be November 18, 2013 at 6:00pm.
Adjourn	The meeting was adjourned at 7:35pm.
	Respectfully submitted,
	Perry Stokes, Secretary to the Board
	PS/ch

2013 Top Strategic Goals per staff survey

BY OVERALL SCORE

- 1. Better communication & information for staff about technology changes
- 2. More time available to provide personalized, high quality customer service to patrons
- 3. Branch staff notified about important changes at main branch
- 4. Help staff stay up to date with technology
- 5. Stronger connections with schools, market library to community
- 6. Walk persons to resources rather than point
- 7. Take time to educate patrons on library use, rather than doing it for them
- BCL circ desk monitors up on top of counters (must be sturdy and have long lifespan) - IN PROGRESS
- 9. Offer MS Word on at least some computers (staff training on LibreOffice)
- 10. Improved Signage interior, exterior, parking areas
- 11. Library instruction classes for public
- 12. More programs recruiting community partners/businesses to do programs (computer shop, museum, Master Gardener group, etc)
- 13. Wednesday meeting training monthly specialized training by staff on select resources (Library 2Go, iPad). Make a schedule 6 12 months out.
- 14. Improved communication between staff
- 15. Keyboards need letters IN PROGRESS
- 16. Large monitor to electronically display and advertise events/resources
- 17. Tech Assistant volunteers or more staff time to help patrons with computer needs
- 18. More library & community organization/business events (cross promotion)
- 19. All staff + board meeting annually
- 20. Library intro brochure / packet for new residents and cardholders

BY TOP % of HIGH VOTES

- 1. Non-fiction Good Reads/Staff Recommendations bin
- 2. Signage with display books encouraging check out DONE
- 3. Offer MS Word on at least some computers (staff training on LibreOffice)
- 4. Better communication & information for staff about technology changes
- 5. Large monitor to electronically display and advertise events/resources
- 6. Better signage parking lot stripes, staff reserved spaces

- 7. BCL circ desk monitors up on top of counters (must be sturdy and have long lifespan) IN PROGRESS
- 8. Troubleshooting flowcharts to empower staff to fix tech issues
- 9. Monthly tech report for work done at branches and at main branch
- 10. More library & community organization/business events (cross promotion)
- 11. Post displays in various community meeting spaces (V.A. At Huntington, Schools)
- 12. Billboard advertising the library
- 13. Instant Messaging (Chat) digital reference service
- 14. Teen Youth Worker processing, repairs, shelving, etc.
- 15. Wednesday meeting training monthly specialized training by staff on select resources (Library 2Go, iPad). Make a schedule 6 12 months out.
- 16. More time available to provide personalized, high quality customer service to patrons
- 17. Tech Assistant volunteers or more staff time to help patrons with computer needs
- 18. Classes on mobile tech devices for staff and public
- 19. More juvenile audios & videos
- 20. More advanced discussion of budget planning

HOW-TO

How to Prove a Library's Relevance: MCPL's Brilliant Brand Strategy

by Jim Staley

MARKETINGLIDICAL MLS

Vol. 27 No. 6 — Nov/Dec 2013

People love libraries. Public libraries enjoy a level of support unmatched by

most other institutions, public or private. Writers say nice things about us, and ALA stats say that the average U.S. citizen uses us more than five times per year (tinyurl.com/qc3ocml). Here at Mid-Continent Public Library (MCPL; mymcpl.org), things are no different.

Mid-Continent Public Library is located squarely in the middle of the U.S., in metropolitan Kansas City, Mo. The 770,000 residents of our library district stretch from urban areas of Kansas City proper to small communities that are the very definition of rural. Within our 1,349 sq. mi., we have 30 traditional libraries, four automated library locations, and the Midwest Genealogy Center. Each of these sites experienced record use at the end of the last decade, but still our board and staff regularly fielded the question, "Are people still going to use libraries?" To answer that, we needed to first assess why these doubts about the future were so prevalent at a time when our usage was soaring.

The now-famous 2010 OCLC study, "Perceptions of Libraries"

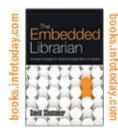

(oclc.org/reports/2010perceptions.en.html), provided us with some context for the concerns of our stakeholders. The study showed that the word most associated with libraries was "books." In fact, 75% of all respondents said that books were the thing they thought of first when they thought of libraries. In an age in which Google and Wikipedia are primary research sources for many and Amazon sells more ebooks than physical books, it is little wonder that our stakeholders would worry about the decline of an institution they primarily associate with paper books.

We surveyed our customers in spring 2012 to assess whether the OCLC study's findings would ring true in our district as well. Among the 25,000 respondents, 65% agreed that "books" was the word they would most closely associate with the library. Focus groups of community leaders took it a step further, informing us that they consider the library a great community resource, but it would be even more valuable if people recognized and understood the vastness of resources available.

Faced with all of this information, MCPL's administrative team sat down to discuss the perception of our institution in the minds of our public and the need to change that perception to remain relevant. To do this, we began with that most difficult of questions: "Who are we, really?"

Getting From 'Books' to 'Access'

As we talked about everything, such as what we offer today, organizational history, and general library philosophy, the word "access" came up over and over again. Through the conversation, we began to look at access as the lens through which our value becomes most clear. It was also the idea that tied all of the library's varied offerings together and was the subconscious reason for most system decisions through the

years (including the partnership that started MCPL).

The idea of access also seemed to go beyond the library walls and resonate in our broader culture. In an era of digital divides and growing income inequality, we felt that libraries' mission of access for all was a powerful value statement.

Stakeholder	Message	In spring 2012, informal testing with staff and patrons yielded positive reactions to the idea that our library brand should revolve around "access." The next task,					
Community members	Libraries aren't just books.	then, was to turn the idea into a brand message. We had previously determined that our brand message needed four major attributes: It had to be clear,					
Noncustomers	The library has services that will improve your life.	focused, flexible, and sustainable. In addition, it needed to be able to communicate with multiple groups of					
Customers	We have more to offer you.	stakeholders. We developed a chart that explained each stakeholder group and the message we needed to communicate to that group via our brand.					
Community leaders	The library remains as relevant as ever.	A final major goal was to have our brand identity re pervade our institutional culture, not just be dismiss as an advertising campaign. In pursuit of that goal,					

made two major decisions. The first was that we would not change our logo. This decision may seem puzzling because we were attempting to move our brand image away from "books," and our logo is an open book. So why not change it? We believe that branding campaigns too often begin and end with the development of a new logo. For us to attempt to alter organizational perception and culture, we needed to be sure that the rebranding would be seen as an alteration of our focus and identity and not just of our logo. And with our belief that this wasn't truly a new direction for MCPL, but a conscious claim on our historical identity, we wanted internal stakeholders to avoid the idea that a new logo meant that we wanted to be something different.

The second decision we made to try to fully infuse the concept of access was to replace the traditional tagline with a layered tag message. This decision was rooted primarily in the need to communicate with various stakeholder groups and in the nature of the services and products we offer.

The layered tag message does start with a base message that looks very much like a standard tagline. The base message is "Access Your World." This statement does three important things: It communicates the essence of the brand, it implies broad offerings, and it is a call to action. This version of the tag message is used in all general communications about the library.

Most library communications, however, don't carry the "Access Your World" statement. Instead, they carry a secondary version of the message that is intended to combine the Access brand with specific benefits of the subject of that particular communication.

			When we produce a communication piece that talks						
	Product	Message	about book clubs, the Access statement is "Access						
			Community." In any case possible, we try to convey the						
	General library document	Access Your	benefit of the service (Here, it's "community.") instead						
			of simply restating the service (book clubs).						
Siar		World	The construction of the layered message is meant to						
	Cianago about book aluba	A 00000	both build the association of the library with Access and						
	Signage about book clubs	Access	to expand the consumer's knowledge of what is there						
		Community	for him or her to access. Visually, this is accomplished						
	Flier about job search help	Access	by consistently rendering "Access" in black or white and						
		Opportunity	then rendering the rest of the statement in a variety of						
			colors. Above are some examples of how we use the						
	Video about kids' reading	Access Literacy	layered Access brand.						
	program								

Achieving Organizational Change

There are no more-important brand ambassadors for any organization than its staff members. At MCPL, we believed that getting staff immersed in the brand was the first stan toward a successful branding effort

To that end, one of the first things we did as we rolled out Access was to give a half-day training session we called "Accessability" (a word play on the ability to provide access). This interactive session in May explained the ideas behind the brand, celebrated the organizational culture around access, and explained the power that each staff member had as an advocate for the library and the brand.

All staffers received their own T-shirt that bestowed upon them the title of "Access Specialist." In the time since the launch, we have actually begun the process of retitling all of our frontline staff positions as access specialists.

Staff reaction to the brand has been very positive. Many employees have talked about the pride they feel from being providers of access to their communities. The board of trustees has also embraced the new brand. MCPL's board president regularly asks the question, "Does this improve access?"

At the end of 2012, MCPL went through a strategic planning process, and the brand took center stage. Our mission statement became a crystallization of the brand concept. It now reads, "Mid-Continent Public Library's mission is to enrich our citizens and communities through expanding access to innovation, information, ideas, and inspiration."

Taking Access to Our Customers

Putting the brand front and center through our communication and marketing efforts was our next challenge. As we worked on a plan to communicate with customers that May, we determined that we needed to not only include the new brand message, but to make more fundamental changes to our promotional efforts to reflect the brand. We thought about our general aesthetic and determined that being accessible meant having more simple and open designs with ample white space. We also thought about the products themselves and whether they supported the brand in concept. I'll detail a few of the changes we made:

Access Passes: There may not be any library item more associated with the "books" brand than the library card. The cards are revered by librarians and customers alike, but they also represent an ability to leave the library with a stack of books. We all know that our cards offer much more. That is why we began calling our library cards Access Passes. A library card may allow you to check out books, but an Access Pass allows you to tap into the vast resources and knowledge available in many forms at your library.

Access Guides: We redesigned our live programming guides and called them Access Guides. These pieces

conformed to our new accessible-design aesthetic and incorporated the brand message. Perhaps more importantly, we developed a new model for our guides that grouped nearby branches in recognition of the fact that our customers tend to access more than one library.

Digital Efforts: A major element of our rebranding effort was thinking about how the concept of access could work in our online efforts. We updated our digital branch and app with the visual branding and also incorporated the idea that being more accessible meant more interaction with customers. In addition, we made a concerted effort to get the most-used resources into visible locations. We also amped up our social media efforts. Our goal became to encourage as much interaction as possible on our pages, and the Likes on Facebook skyrocketed as a result.

Advertising Campaign: The one piece of this process that incurred significant cost was the advertising campaign, which was intended to carry the Access message beyond our walls. Because we were talking to people who had much less familiarity with the library, we focused the campaign on the ability to access services that would make someone say, "Wow, I didn't know the library did that!" Among the products we featured in the ad campaign were ebooks, homework help, downloadable music, and job search resources.

We then set out to create as many impressions as possible in our community. To accomplish that goal, we developed a multichannel campaign that was aided by donated and reduced-cost media from local companies. The campaign, which ran from August through December, included the following:

- · Online ads
- Television
- Radio
- Newspapers (print)
- Magazines (print)
- · Online video pre-roll

Each type of media carried a mix of messages that was appropriate for that audience. For instance, ads to promote our free music downloads ran as "pre-roll" (paid messages that run before a selected service begins) spots on local streaming radio, so people saw them as they waited for their chosen radio stream to start. Every medium carried at least two different messages to consistently enforce the idea that there are multiple resources people can access. The overall media mix allowed us to garner more than 15 million impressions. That means reaching members of our community an average of 20 times each. (This, of course, didn't even count the impressions our current customers get through their interactions with the library.)

How did we pay for all of that? The MCPL board was excited enough about the brand to dedicate a special marketing budget of \$75,000 specifically for it, which we spent on media and printing. We leveraged that budget with our local media partners to get \$19,200 worth of free exposure as well. (In addition, we estimate that our staff spent \$70,000 worth of time on it.)

Tracking usage numbers for the products we featured in the ad campaign proved that people paid attention. During the period ebooks were advertised, their circulation went up 191%. Use of online job resources grew by 48%. Online tutoring sessions grew by 37%. Enrollment in online classes grew by 23%. And downloadable music usage grew by 227%!

Where We Are Today

As I write this in October 2013, it has been about 10 months since the end of the initial major push for the campaign. The brand has begun to settle in as a regular part of life for everyone around the system. Staff members talk about becoming aware of how many times they use the word "access" in the course of their daily work. Our customers tell us they like our Access Passes, but we still have some work to do in educating them on all the library has to offer. And we were honored that our library colleagues believed in the campaign enough to make it a 2013 John Cotton Dana Library Public Relations Award winner (tinyurl.com/q43eo5c)!

We are about to begin another advertising push that features the brand. This time, we will shift the focus slightly from "wow" products to initiatives that fit our new strategic plan. We will also reduce our media mix a bit to use our most effective channels more frequently.

All in all, we can say that the branding experiment was a success. However, this brand was built specifically to work in an ever-changing library landscape. That landscape hasn't stopped shifting, so we must continue to redefine what "access" means to our customers and our community.

Jim Staley is the marketing and communications director at Mid-Continent Public Library in Kansas City, Mo. He holds a master's of public administration degree from the University of Missouri–Kansas City and a B.A. in communications from Drury University in Springfield, Mo. Staley was the rebranding process leader for MCPL and serves as a member of the senior administrative team. His email address is **jstaley@mymcpl.org**.

8 Comments

Click a state above, or use the drop-down below to jump to the Star libraries in that state.

Star libraries are listed alphabetically by state abbreviation, then ranked by stars and score. Please note that expenditure category peer comparisons are the critical ones; for the Star Libraries by expenditure category please go to <a href="https://doi.org/10.1007/jhe-20.2007/jhe

To sort the table, select the desired column by clicking the cell in the head row of the table. To sort the table by two criteria, first click the header column you'd like to be the initial sort factor. Then add a secondary sort by holding shift while selecting another column.

You can also use the search box at the top right corner of the table to search for text in the table.

There are no libraries on this chart from Washington DC, Delaware, Georgia, Hawaii, Mississippi, North Dakota, South Carolina, Tennessee, or Wyoming
