

Family Storytime Kits

for April

Books About Color:

Activities and Conversations: Talking and playing with your child are essential steps for their success in reading!

Let's Explore: Color!

Exploration #1

Use the included watercolor paints and paper to create crumpled paper art:

1. Crumple the paper and paint one color anywhere you want.
2. Paint a second color (or 3rd, 4th)
4. Flatten the paper out and let dry.

What kinds of images do you see in your picture?

Exploration #2

Use the included watercolor paints and half paper plate to create a rainbow:

1. Paint a stripe in the order of ROYGBIV (red, orange, yellow, green, blue, indigo, and violet)
2. Let dry completely and then glue clouds (cotton balls) to the ends of the rainbow.

Exploration #3

Use the included watercolor paint to practice color mixing! You can do this right on the paper or you can mix on a washable plate. Start with two colors and then add more to see what you get.

Brain Break- Bluey Yoga on Youtube

Relax your mind and stretch your body with this Bluey themed yoga for kids.
